

Woodward Township
Supervisors Workshop
May 6, 2026

The Woodward Township Supervisors workshop was called to order with the following in attendance: Jeffrey Stroehmann, Craig Grove, Wayne Robinson, Joseph Lyons and Pamela Musser.

It was stated that we received a quote for a new heating system for the shop portion of the building, will continue to get more quotes.

Mr. Lyons spoke regarding the subdivision/land consolidation for Dark Woods, LLC property. The land development plan will need to have the Erosion/Sedimentation plan as the amount of land disturbed was greater than the allotted amount. The deeds will need to be consolidated to make one lot.

The meeting dates were discussed for the June meeting and beginning from July forward. This will be discussed at the regular meeting next week and the dates will be advertised at that point.

The sea containers on the property off Youngs Road were discussed. There are several concerns with this property as well as the assessment. The ordinance states that there can only be 400 sq ft of storage in a residential district.

The Campground on Antlers Lane was then discussed. A letter from the owner regarding the intent to purchase the land is needed.

The subdivision on Browns Lane was also discussed; the letter needs to be signed with regards to the resubmission of the sewage permit for this property.

The Policy and Procedures manual will be addressed with regards to vacation policy.

The meeting was adjourned.

Respectfully submitted,

Pamela Musser, Secretary
